

## **Colosa to demonstrate value of open source Business Process Management to government users at FOSE 2009**

*-Leading open source solution ProcessMaker highlights ways to efficiently streamline workflow and facilitate cost-effective delivery of eGovernment and Citizen Services at 2009 government event-*

**Washington, DC, Walter E. Washington Convention Center, Booth 2618 - March 10-12, 2009** - Colosa ProcessMaker, a developer of business process management software that enables enterprises and public organizations to simplify workflow through the capture and automation of paper-based processes, will be attending and exhibiting this year's FOSE government IT conference.

The Colosa team will demonstrate how government departments and organizations can deploy Business Process Management (BPM) practices and policies to simplify workflows, increase workflow efficiency, and ensure the timely and cost-effective delivery of government services. The company's CEO, Brian Reale, will also be sharing best practices in BPM that have been realized by government organizations including:

- US Secret Service
- Congress of the Republic of Peru
- National Social Security System of the Republic of Bolivia

**Who:** Brian Reale, CEO and cofounder of Colosa Inc., the developer of ProcessMaker, a leading commercial open source Business Process Management (BPM) software that has proven expertise in improving the processes of government. With over 12 years of developing technology companies, Reale is an expert in open source technologies and process management for government.

**What:** Reale will be demonstrating ProcessMaker form and process examples and showing its value within government agencies and organizations.

FOSE, established in 1976, has been focused on government technology and shaping key developments in the public sector throughout the past several decades. It is targeted towards government IT and program management professionals, providing information sessions and networking opportunities to help improve technology within the public sector.

**When:** March 10-12, 2009.

**Where:** Booth #2618 at FOSE 2009. FOSE 2009 is located in the Walter E. Washington Convention Center. 801 Mount Vernon Place, NW, Washington, DC 20001.

### **About Colosa**

Colosa is a developer of software solutions that enable companies to simplify workflow through the capture and automation of business processes.

The company's flagship product, ProcessMaker ([www.processmaker.com](http://www.processmaker.com)) is an Open Source workflow management software application that enables SMEs to automate document-intensive, approval-based processes across systems including finance, HR, and operations. ProcessMaker is an AJAX-enabled, SOA, web-based application that allows users across single and multiple sites to create and share workflows, customize forms, manage processes, and enhance reporting. ProcessMaker OSS is available for download at <http://sourceforge.net/projects/processmaker> and more information is available at [www.processmaker.com](http://www.processmaker.com)

Colosa was founded in 2000 and has customers in local and central government, retail, and finance. Colosa has offices in Brooklyn, NY; La Paz, Bolivia; and Lima, Peru. For more information, visit [www.processmaker.com](http://www.processmaker.com).
