

Corporate Fact Sheet

We are ProcessMaker, a leader in enterprise workflow software that drives the highest levels of customer engagement and operational efficiency for some of the world's largest organizations. Whether it's driving a smart car, swiping a credit card, enrolling in college, or submitting a time off request—hundreds of tasks are powered by ProcessMaker every day.

Our intuitive technology integrates perfectly with your existing systems, allowing you to quickly build, deploy, and scale comprehensive solutions across your entire organization. Document management systems (DMS), enterprise resource planning (ERP) software, and customer relationship management (CRM) software integrations help you connect people with technology, optimizing operations from the inside out.

Quick Facts

Our global clients span five continents and many industries, including:

- ✓ Global Banking
- ✓ Higher Education
- ✓ Insurance
- ✓ Manufacturing
- ✓ Energy
- ✓ Communications
- ✓ Healthcare

What sets ProcessMaker apart

Our architecture is designed to deliver the highest levels of speed, power, and agility to your organization.

- Solve operational inefficiencies in banking, higher education, and other larger enterprise settings with ease through design-friendly workflows
- Eliminate organizational silos, synthesize data for better decision making, and increase accountability across departments
- Transform the customer journey by removing manual reporting and dated technology with complete digital solutions.
- Deploy anywhere. Our cloud, your cloud, or a partner's cloud—it's your choice.

Did we mention we're an industry leader?

Top industry analyst firms consistently rank ProcessMaker as a leader in workflow and business process management (BPM) applications and platforms. See our latest high rankings from **Gartner**, **G2 Crowd**, and learn more at www.processmaker.com.
